

# A SKEPTICS JOURNEY

## A skeptic presents evidence for God and Christianity

I am a self-professed skeptic and former atheist turned Christian. As an atheist, I was attending church services only to support my wife, believing much of what I heard was simply a made-up story. However, I came to realize my belief was apathetic, based only on anecdotal evidence and opinions. So, I began a journey, "A Skeptics Journey", to investigate the evidence for myself. I discovered there was substantial evidence for both God and Christianity. I now present the evidence that convinced me to change my life.

Talks begin and end with a testimonial on my journey and include some or all the content below.

### Evidence for God

#### Design in Life

There is a blueprint in life called the DNA molecule. This, along with molecular machines, exhibit evidence of a designer.

#### Design in the World

Recent scientific discoveries have exposed evidence of design throughout the universe.

#### Supernatural

Morality, near death experiences, our senses, and consciousness are evidence of things beyond nature and materials.

#### Something Wrong

Evil and suffering is an obvious reality of our world. Often cited as evidence against God. I'll explain why I believe it's the opposite.

### Evidence for Christianity

#### Radical Change

The world changed in the most radical way starting ~2000 years ago. We'll explore this change and why I consider it radical.

#### Sources

The who, what, where, when, and why for the radical change comes to us from multiple historical sources.

#### Eyewitness Testimony

When I came to realize the Gospels were eyewitness accounts, it was a game changer. We'll put their testimony to the test.

#### Miracles

I concluded that at least one miracle has occurred. If one is possible, the resurrection is possible.

#### Unique

Christianity is unique and rises above the other religions.

Event length is customizable from 30 minutes up to 4 hours.
